## SUMMARY

Bilingual professional (Portuguese & English) holding a vital certificate in Software and Web Development (Coding Intensive Bootcamp). An analytical, resourceful, and hardworking individual with strong knowledge in software and web development, experience in Media Producing, and currently teaching international students in IT courses. A proven team player who values collaboration to drive continuous improvement while demonstrating exceptional prowess in managing projects and goals. Confident to work in both multinational and start-up environments; demonstrating an ability to adapt to scenarios and personalities. Comfortable with remote working settings and consultancy-based roles.

## AREAS OF INTEREST:

- Web Development | Full Stack Development | Backend and Frontend | Project Management | Software Development | IT Support

## TECHNICAL SKILLS

- Back End: Ruby, Ruby on Rails, NodeJS.
- Front End: HTML, CSS, JavaScript, jQuery, ReactJS, Bootstrap.
- Databases: PostgreSQL.
- Version Control: GIT, GitHub.

## EDUCATION

- **Bachelor's Degree in Aeronautical Science** | Estácio de Sá University, Brazil | 2016 - 2020.

## Further Certifications & Training

- **9-week Intensive Course Coding Bootcamp** | Le Wagon, Brazil | 2020.  
*HTML, CSS, Bootstrap, JavaScript, SQL, git, GitHub, Heroku, and Ruby on Rails.*  
*Designed, implemented, and shipped to production 2 Rails apps.*

## EXPERIENCE

**Lead Teacher | Le Wagon, London | 05/2021 - present.**

<https://www.lewagon.com/>

*Web Development Bootcamp*

- Conducting programming (Full Stack Web Development) classes - intensive coding and development bootcamp.
- Teaching students core concepts and helping them solve complex challenges in Ruby, Ruby on Rails, JavaScript, HTML, CSS, object-oriented programming, and relational databases.

**Teaching Assistant | Le Wagon, Brazil - London | 10/2020 - 05/2021.**

<https://www.lewagon.com/>

*Web Development Bootcamp*

- Teaching students core concepts and helping them solve complex challenges in Ruby, Ruby on Rails, JavaScript, HTML, CSS, object-oriented programming, and relational databases.

**Media Producer | Earthquake, Brazil | 01/2017 - 06/2020.**

<https://www.earthquakedigital.com.br/>

- Acted as the principal media producer and project manager for clients within the music industry (videoclips).

- Translated ideas and concepts into workable production schedules and budgets.
- Worked closely with the creative team and external partners throughout the production process.
- Maintained high standards across all media producing processes and activities.
- Managed schedules and budgets, assigning resources, and finding partners, directors, producers, and other vital talent to make the best creative work possible.
- Coordinated the film and photography production process, making sure everything was aligned throughout the pre-production, shooting, post-production, and final delivery of content across all channels.
- Coordinated the whole content flow, from monitoring coordinates to facilitating hunts.
- **Achievements:**
- *Successfully produced videos that achieved millions of views:*
  - *Outro dia - Music Video - 62,6 million views - [Link](#)*
  - *Linda Flor - Music Video - 2,5 million views - [Link](#)*

### **Airport Professional | Infraero Aeroportos, Brazil | 2010 - 2016**

#### *Airport*

- Complied with country regulations and other guidelines.
- Supervised cross-functional teams within the Airport.
- Responsible for plan budgets.
- Kept up to date with outside factors, such as weather.
- Worked closely with community leaders.
- Maintained accurate records and prepared airport activity reports.
- Oversaw the maintenance and repair of airport equipment.
- Responsible for the day-to-day operations as well as future airport planning.
- Responsible for airport safety, regulations, and budget planning.
- **Achievements:**
- *Developed an application with Excel / VBA that retrieved flight's info from ANAC's (National Aviation Agency) website in order to improve planning at Rio's International Airport.*

### **GENERAL SKILLS**

- 
- **Language Skills:** Portuguese (Native) | English (Full Professional Proficiency).
  - **Tech Skills:** Web, Software development, API integration, Technical (IT) documentation, Full stack development, strong coding skills.
  - **Soft Skills:** Ability to work under pressure, multitask, set priorities, problem-solve, and manage time effectively. Strong verbal and written communication skills in both Portuguese and English languages, along with active listening. Excellent attention to detail and data analysis skills. Strategic Mindset and eager to innovate and implement new technologies.
